#### Additional information:

1. Deliver a high quality customer focussed and professional administrative service at all times, delivered to the required SLAs and following established processes and policies. All documentation is delivered on time and accurate.
2. All employee master data records within SAP HR are accurate and up to date and that delays do not lead to payroll processing errors or incorrect payments. All other HR related systems / third party systems are also accurate and updated in accordance with our SLA's.
3. Absence and attendance data is recorded accurately and on time for payroll running schedules or our SLA's.
4. All employment change forms are checked for accuracy and full authorisation levels before being inputted to SAP HR.

5. All enquires are handled and resolved in accordance with our SLA's and deliver excellent customer service, supported by customer feedback. Full accurate records are updated and completed to enable accurate audit, monitoring and reporting against SLA's.
6. All new starters have provided and been verified for Right to Work ensuring full compliance with legislation.
7. All training courses are effectively and efficiently organised in time and with full supporting documentation completed.
8. Employees have access to timely and accurate provision of company benefits and appropriate tax treatment is being applied through payroll.
9. Anomalies are identified and escalated appropriately either within People Services or directly to the line manager within the business.
10. Queries on employee information are handled with appropriate sensitivity and confidentiality and comply with Data Protection legislation.
11. System issues are escalated immediately as to not delay payment to employees, breach deliver within SLA's or breach any compliance to legislation.
12. Full and rigorous system testing is completed to ensure any system, process or data anomalies are identified and escalated during the testing process to mitigate any issues to the live system or create breakdowns in legal requirements.
13. Employee documentation for electronic documents and paperwork is filed appropriately. Data cleansing / destruction is completed in accordance with Data Protection legislation to ensure full compliance.
